Scientists Believe That The Ocean Holds The "Master Key" To <u>Eternal Youth</u>... **(AND ULTIMATELY HEALTHY BLOOD PRESSURE)**

Marine species are the longest-living of any species known to man.

They live hundreds, even thousands of years because they contain highly potent substances and have unique molecular structures.

This is why they survive, adapt, and thrive in the harshest environmental conditions—including animal attack.

Researchers have discovered that their secret to near eternal youth comes from their extreme ability to protect and repair their own DNA.

They also maintain high antioxidant levels throughout their lives so they constantly beat back free-radical damage and toxic invaders.

They've Made Themselves Virtually Immune To The Ravages Of Aging... And So Can You!

Scientists have now identified and learned how to extract these rare and potent antiaging sea ingredients and <u>apply them to dramatically improve your cholesterol</u>, and <u>help promote a happy and healthy heart</u>...

For the first TIME EVER...

Two extraordinary marine super nutrients have risen to the top:

Seanol™: An extremely rare seaweed extract (from Ecklonia Cava) proven 100 times more powerful than any land-based antioxidant.

Over 15 years of research and nearly \$40 million worth of clinical studies back it up.

It's the only FDA-approved Ecklonia Cava marine-algae extract in existence.

Not Only is Seanol More Potent... It Stays In your body 12 Hours, compared to Land Based Antioxidants that work on for 30 minutes...

and even Resveratrol is only 14 minutes...

Delivers Off-the-Charts Antioxidant Power! how much antioxidant protection each nutrient will gives us.

When taken 2 times a day, it gives you 24 hour protection against the 3 main causes of aging and high blood pressure, which we will address later in this presentation!

Discovering this secret can put years on your life and start reversing the effects of aging and heart disease immediately.

Super Ingredient #2:

Calamarine™:

A deep-sea omega-3 discovery that blows away every fish oil in existence!

It delivers an unheard of 85% more DHA omega-3s to your heart, brain, joints, and eyes!

Scientists have discovered that the type of omega-3 it contains is the true miracle worker.

Not only is this the world's most powerful Omega...

But you can get more than 8X the benefits of a Fish Oil without the burps and after taste...People LOVE This Benefit...

With This SUPER-OMEGA, you can say goodbye to your fish oil and...

- Fatigue
- · Heart trouble
- Poor memory
- Vision Problems
- · Dry or itchy skin
- Joint pain
- Lack of endurance
- Poor circulation
- Mood swings or depression

- Prevents Oxidation From Clogging Your Arteries
- Helps Lower Your Blood Pressure So You Can ACE Your Next Exam
- Prevents Gunk From Sticking And Keeping Arteries Clear

For The 1st Time Ever, These 2 MARINE SUPER NUTRIENTS Have Been Combined For YOU!

It's never been done before, but we're bringing you the first age-busting, joint-pain fighting formula that combines Seanol and Calamarine.

It's called Marine-D3.

Why D3?

Because it also includes a superior form of vitamin D...

To Give You Even MORE Intense Rejuvenation & Repairing POWER

Research shows that this life-saving vitamin plays a key role in preventing nearly every major disease, from depression to heart disease & high blood pressure.

But a whopping 75% of Americans simply don't get enough!

Your cells are literally starving to death without it!

With Marine-D3, turning back the clock is no longer some futuristic dream – it's a longevity breakthrough you can benefit from NOW!

Its Extreme Rejuvenating Power Comes From Joining Three Healing Powerhouses!

Each of these nutrients is tremendously effective on their own, but when combined for the first time ever in Marine-D3, the synergy of all three delivers unprecedented anti-aging and disease-fighting benefits!

Together, they attack aging from every conceivable angle and restore health in nearly every system in your body – Even if you have heart disease or cholesterol issues!

YOU Can Escape The Fate Of "Old Age"

Nowadays there's a lot of "controlling blood pressure" talk out there - supplements that claim to lower your blood pressure,

but do little more than drain your wallet...

But Marine-D3 Has Changed Everything!

Just Take A Look:

BEFORE: Maintaining healthy, protected cells is a major key to good health and longevity.

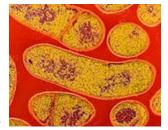

We not only know that aging and the progression of disease can be slowed, but that so much of the damage can be halted and even undone. This is because scientists have finally zeroed in on the real reasons we age.

And they now know why our bodies become so vulnerable to major killers like heart disease, chronic pain and diabetes.

Here's What's Really Causing The Destruction:

Silent Killer #1: Cells That Are Poisoned By Radicals & Toxins

Every day our bodies and <u>cells are under attack from free radicals and toxins from processed, high fat foods, pollution, everyday household chemicals, sun exposure, ozone, and even stress.</u>

This causes the DNA inside cells to break down and lose their ability to make sharp "carbon copies."

In a sense, our cells are slowly being poisoned to death, accelerating aging, high blood presssure, and heart disease.

Silent Killer # 2: Nutritionally-Starved Cells

Just like your body needs food to survive, your cells need nutrition to live. So when cells are not getting nutrients like life- giving omega-3s or essential vitamin D, they are literally starving to death!

They slowly shrink and then die off.

If you are not currently flooding your cells with life-giving nutrients now, then you are wide open to <u>accelerating heart disease</u>, higher blood pressure, and aging...

Silent Killer #3: Inflammation

While actually a result of the first two, <u>mounting evidence points to inflammation</u> <u>as the most insidious cause of premature aging</u>, and a factor in every major disease including high blood pressure.

This causes chronic pain, excess water retention, chronic fatigue, and problems with your eyes and memory...

The good news is... you can put the acceleration of these problems behind you...

Within Marine-D3 You Instantly Introduce Your Own Personal Health Restoring ARMY... Working at the Cellular Level That Halts Accelerated Disease and Aging because it...

STOPS Cell Poisoning.

STOPS Cell Starvation.

and STOPS Inflammation.

Marine-D3 Floods your body with 2 to 10 TIMES more Antioxidant Power than any land based antioxidant!

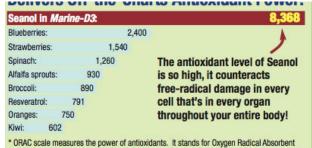

Seanol is up to 10 times more potent than vitamin C, vitamin E, blueberries, green tea, and red grape

resveratrol!

I believe it's the <u>most powerful antioxidant ever</u> <u>discovered</u>. That's why Marine- D3 is chock full of Seanol in its purest form.

"Its secret is its make-up of special polyphenol antioxidants that are a whopping.40%.lipid (fat) soluble.

So unlike nearly all land-based antioxidants that are water soluble, Seanol's protective compounds can get into things like the fatty tissues of your brain and penetrate all three layers of your cells, including the outside, the oil-based cell membranes, and your DNA."

Capacity, and was developed by the National Institute on Aging to give us a way to compare

Also, research done at Tufts University showed that Severe memory symptoms stopped or improved for 80% of people taking high doses of Seanol for 8 weeks.

You Get Pure Seanol In Every Dose Of Marine-D3.

Why All Seanol Is NOT The Same:

While Seanol is becoming very popular, Marine-D3 does not give you ordinary Seanol - it contains Seanol-P which is the only pure form (hence the "P") of Seanol; the exact kind used in the clinical trials.

how much antioxidant protection each nutrient will gives us.

The "P" form is 7.7 times more potent than the other form on the market, Seanol-F. So you need less to get the same big benefits.

(Be careful, unless a manufacturer lists the "P" after the Seanol, it's not the pure form)...

The trouble is, Seanol-F is diluted with additives to help the Seanol get absorbed in your body - Seanol is extremely <u>hard to absorb.</u>

So how is Marine-D3 able to give you the undiluted, pure form of Seanol-P without sacrificing absorption?

Because Marine-D3 includes absorption- enhancing Calamarine.

Not only does Calamarine ensure that your body completely soaks in the Seanol, it gives extraordinary benefits on its own!

It's Ingenious!

A New Omega-3 Discovery That Blows Away Fish Oil! Once and for All..

It's called Calamarine and it's unlike any fish oil or omega-3 supplement you've ever taken. In fact, it's NOT fish oil at all...

Extracted from deep-sea squid found in the pure, clean waters off South America, Calamarine is a purified omega- 3 oil.

With Marine-D3 You can Throw Away Your Fish Oil...and Get Your Omega-3's <u>Without Fish Burps</u>...

As many people know these days, omega-3s are essential fatty acids you need to stay healthy and fight disease.

The two most critical omega-3s are EPA (Eicosapentaenoic Acid) and DHA (Docosahexaenoic Acid), found mostly in fish oil.

What's so special about Calamarine - and why I insisted it was in Marine-D3 - is that it <u>delivers 85% more DHA than</u> fish oil.

And the NEWEST RESEARCH shows that DHA (not EPA) is the real omega-3 workhorse!

The scientific evidence supporting the benefits of DHA over EPA is overwhelming.

Omega-3 Deficiency Is The 6th Leading Cause Of Death!

More heart disease, more cancer, more depression... so many of these growing health problems can be traced to a simple

omega-3 deficiency! Remember, omega-3 is an essential fuel for your cells.

Without it, your cells starve, shrink, and then die off, eventually choking off life to your heart and brain.

Here's another wake up call...

99% Of Americans Don't Get Enough Omega-3s!

There are a whole slew of symptoms linked to omega-3 deficiency, but sadly many are blamed on other problems.

Now There's A Better Way...

Marine-D3 is radically different with its high DHA omega- 3 Calamarine. Remember, Calamarine is not fish oil - it's harvested from deep-sea squid. And for unknown reasons, its potent omega-3s are extremely stable and naturally resistant to oxidative damage.

What's more, every batch of Calamarine that goes into Marine-D3 undergoes a proprietary detoxification process which removes all substances that could possibly

increase oxidation.

In fact, Calamarine is twice as stable as popular omega-3s from tuna!

But That's Not All...

Look at the Other Benefits You Receive By Adding Vitamin D3 To Your Daily Routine...

| People who maintain HIGH levels of Vitamin D have: | People with LOW levels of Vitamin D have: | |
|--|---|--|
| Less inflammation and slower aging. Vitamin D has been shown to stave off chronic inflammation linked to virtually every major disease. | ■ Higher risk of dying. Vitamin D has been shown to stave off chronic inflammation linked to virtually every major disease. | |
| Stronger immunity. A recent study at the Yale School of Medicine showed that people with higher vitamin D got sick about half as much. And if they did get sick, they recovered faster. | High blood pressure. A long term study at Johns Hopkins showed people with inadequate vitamin D had 80% greater chance of narrowing of the arteries—a major risk factor for heart disease. | |
| Less cancer. High vitamin D levels are linked to a 30% - 50% lower chance of breast cancer; and 50% lower chance of colon cancer. Vitamin D actually regulates some genes responsible for cancer cell growth and survival. | Chronic Pain. A study conducted in 2008 showed that 25% of people suffering with chronic pain had low levels of vitamin D. Migraines and headaches were also linked. | |
| Higher colon cancer survival rate. Researchers found that colon cancer patients with high levels of vitamin D had a 39% lower chance of dying from this cancer. | Osteoporosis. A deficiency of vitamin D makes people more vulnerable to this bone condition because it reduces calcium absorption. | |
| Reduced risk of Parkinson's and mental decline. Vitamin D has a protective effect on the brain. It enhances the activity of neurons and detoxifies cells. | Mental decline and depression. People who don't get enough vitamin D are more susceptible to cognitive decline and low moods. | |

This Is Why I Urge You To Consider Getting Your Supply Of Marine-D3, The "Marine Miracle"

Right now, your heart is pumping strong... your blood is flowing freely, carrying revitalizing nutrients to every part of your body.

You feel alive and fully charged!

This is how a young, healthy heart behaves.

But when you're battling cholesterol, blood pressure, or circulation trouble, this just isn't possible.

A Study showed Seanol lowers bad oxidized LDL by 29.4 points in an 8 week period.

Marine-D3 is like a rejuvenating shot of youth to your entire cardiovascular system!

So, What Is A Healthy Heart Worth To You?

After researching and hearing about the Amazing health benefits that we've packed into Marine-D3 – you may be wondering,

"It all sounds great, but how much is this 'Miracle Formula' going to set me back?"

 $\underline{\text{And I'm so glad you asked}}$. You see, when we started to formulate Marine- D3 we realized that we had to make it an incredible value.

In fact, here's a look at what you'd need to do to "possibly" match Marine-D3 with other supplements...

| See the Marine-D3 Difference! | | |
|---------------------------------|---------------------------|---|
| Popular Individual Nutrients | Typical Cost per Month | Problems |
| Regular Fish Oil | \$12 | Far less DHA omega fatty acid than Calamarine, shortchanging you on the protection required for your heart, brain, joints, and eyes. Marine-D3's Calamarine has 85% more DHA than regular fish oil! Naturally unstable, and can go rancid easily and quickly on the shelf and inside your body. The Calamarine in Marine-D3 is extremely stable and naturally resistant to oxidative damage. |
| Resveratrol \$28 | \$28 | Inferior antioxidant staying power and protection — only stays active in your body 14 minutes, compared to Seanol's 12 hours (Marine-D3 is loaded with Seanol!) Only 2 molecular rings to trap and destroy free radicals, compared to Seanol's stronger 8-ring structure. |
| | | Mediocre 5-LOX pain enzyme lowering power compared to Seanol — the Seanol in Marine-D3 works 57% better than Resveratrol on 5-LOX! |
| Seanol-F alone | \$29 | Diluted with additives that help absorption, but water it down. The pure Seanol-P in Marine-D3 is 7.7 times more potent than Seanol-F, so you need less for greater benefits. Plus Marine-D3 doesn't need diluting additives since its Seanol-P is paired with Calamarine, which maximizes absorption! |
| Green Tea | \$14 | Works in the body a maximum of 30 minutes, far less than Seanol's 12-hour lifespan. Only 4 molecular rings to trap and destroy free radicals, compared to Seanol's stronger 8-ring structure. Mediocre 5-LOX pain enzyme-lowering power vs. Seanol — the Seanol in Marine-D3 works 84% better than Green Tea on 5-LOX! |
| Vitamin D2 | \$7 | Less potent than vitamin D3. Binds less tightly to the body's vitamin D receptors than the vitamin D3 in Marine-D3, so it's poorly-absorbed. Not very shelf stable, so it is often watered down when it reaches the body. Vitamin D3 is very shelf stable, so you get a "full strength" dose every time! |
| | TOTAL: \$90 per month! | You get much more protection for much less money with Marine-D3! |

But Marine-D3 Won't Cost You \$90/Month...

Even though it would definitely be worth it...
